Official Paper of Cochise Co.

TUESDAY, NOVEMBER 21, 1889.

At this distance it looks as if Goebel had been elected governor of Kentucky by a safe majority. He claims an uncontested plurality of 1,540 votes.

During the period from January 1 to June 3, 1889, there were 574 strikes inaugurated in Germany, affecting 2,910 establishments and 89,048 employees.

It is true in all parts of the world, and especially in the United States, says the Albuquerque Journal-Democrat, that agriculture lies at the foundation of the only permanent and reliable prosperity.

Factories may fail, commerce may change its channels and even mines may "pinch out," but the farm is always reliable, especially the farm that is insured against drouth by a good system of irrigation.

CONGRESSMAN ROBERTS can at least thank his polygamous instincts for having made him a national character, for there is not a newspaper in the country, and in fact scarcely in the world, but that has made some kind of comment upon him and his position. Even if the crusade does not succeed in keeping him out of congress it is sure that it will bring about his social ostracism while in Washington, so as an object lesson some good will have been accomplished, anyhow.

Cuba, which is going to have a Thanksgiving day this year, has especially good reasons to observe this occasion with a good deal of fervor. Not since the days of Diego Velasquez, Spain's first governor of the island, nearly four centuries ago, has it enjoyed such freedom and prosperity as it has enjoyed for the past three-quarters of a year. No part of the world has greater reasons for thanksgiving at this time than Cuba can show. November 30, 1889, ought to be an exceedingly interesting occasion to Cuba.

The tendency to worry is a matter of personal idiosyncrasy, and is not easily accounted for on scientific grounds. Some people worry about nothing, and some let nothing worry them. No doubt the condition of the latter is the more enviable; but it is not always to be attained by striving. You meet one man who has most things that would make him happy—wealth, social position, domestic ties, congenial occupation, and you find him gloomy, depressed, unapproachable, a prey to perpetual low spirits. Another, who has real sorrows enough to crush him to the earth, is comparatively cheerful. Perhaps it may be said, so far as any general axioms can be ventured, that those who have known real trouble are less inclined to worry than those whose experiences have been on the whole fortunate and easy.—Cultivate the Era.

A SPECIAL cable dispatch sent to a newspaper in Meriden, Connecticut, by Francis Atwater, financial manager in Cuba for the Red Cross society, indicates that there is some hope of running down the scoundrels who sank the Maine. "I have just learned from a well known detective," says he "that he is hot on the trail of the villains who drew up the battleship Maine in Havana harbor, the wreck of which I can see as I send this dispatch. One of the scoundrels, according to my information, claims he has not been treated right. He offers now to turn state's evidence if he is paid \$15,000 to \$20,000 that he can live in seclusion in some foreign country the remainder of his life, as he well knows that in Cuba or United States he never would be wed to live an hour when it is known he is one of the dastardly cowards who caused the loss of so many lives. claims there were seven or eight in the plot, some of them now being in United States and the others here." Atwater sent the dispatch exclusively to the newspaper of which he is a part.

certain's Pain Balm Cures Others
Why Not You?

My wife has been using Chamberlain's Balm, with good results, for a lame leg that has pained her continually for years. We have tried all kinds of medicines and doctors without any benefit from any of them. We saw an advertisement of this medicine and thought of trying it. We did with the best of satisfaction. She has used only one bottle and is almost well.—Anon L. Manchester, N. H. For saleuggists.

The Cruel Knife!

It is absolutely useless to expect a surgical operation to cure cancer, or any other blood disease. The cruelty of such treatment is illustrated in the alarming number of deaths which result from it. The disease is in the blood, and hence can not be cut out. Nine times out of ten the surgeon's knife only hastens death.

My son had a most malignant Cancer, for which the doctor said an operation was the only hope. The operation was a severe one, as it was necessary to cut down to the bone. The surgeon made a large incision, before a great while the Cancer returned, and began to grow rapidly. The doctor advised removal without delay, and finally, upon the advice of a friend, decided to let it alone. Swift's Specific, and with the second bottle he began to improve. After twelve bottles had been taken the Cancer disappeared entirely, and he was cured. The cure, however, for he is now seventeen years old, and has never had a sign of the dreadful disease to return.

J. N. MENDOZA,
275 Snodgrass St., Dallas, Texas.

Absolutely the only hope for Cancer is Swift's Specific.

S.S.S. For The Blood

as it is the only remedy which goes to the very bottom of the blood and forces out every trace of the disease. S. S. S. is guaranteed purely vegetable, and contains no potash, muriate, or other mineral.

Books on Cancer will be mailed free to any address by the Swift Specific Co., Atlanta, Ga.

COPPER IS THE METAL

The Cochise Copper Mining Company,

Bisbee, Arizona.

This company owns a very valuable group of mines situated in Warren mining district, county of Cochise, Arizona, lying immediately east of and adjoining the town of Bisbee, and adjoining the property of the Copper Queen Consolidated Mining Company on the north. The latter company has been in operation for about twenty years, and employs about 1,500 men daily in the operation of its mammoth mine and smelters, and as a result has produced copper to over 34,000,000 pounds during the year 1888, and the net proceeds of such production are reported to have been over \$2,000,000 and it has been said by experienced miners who have been under its employ for years, that the Queen mine now has sufficient ore in sight to keep it in constant operation for the next twenty years without further development.

Is it not reasonable to believe that the property of the Cochise company is fully as valuable, when it is within such close proximity to such a wonderful mine?

The blasts set off in the underground workings of the Queen property can easily be felt and heard at the shaft of our mine, and oftentimes the concussion has attracted marked attention.

The original owners of these valuable mines are local business men, well and favorably known in Bisbee and surrounding vicinity, who are doing their utmost to make this enterprise a success in every respect. The board of directors are original owners, and are donating their services to the company until such time as the mine will pay dividends. They own the controlling interest in this property, and as a protection to stockholders have placed their entire interest in escrow for a term of one year.

The stock books of our company are now open for subscriptions, and a limited number of shares are offered at ten cents per share. No application for less than 100 shares will be accepted.

The company reserves the right at any time to advance the price of shares without further notice, or to reject any application for stock at their discretion.

Every cent received from the sales of stock will be expended toward the development of our property and the erection of hoisting works, and all other necessary improvements, and to make our enterprise a success in every particular.

We invite investigators and their experts or their engineers to closely scrutinize our property.

Applications for shares may be made to any of the directors of the company, or to any of our legally authorized representatives.
